

ENTOG Exchange Germany 2025

2–4 June 2025 | Mainz, Germany

JUNGES
FORUM

Dear friends and colleagues,

we are excited to welcome you to Germany for the ENTOG Exchange 2025! The ENTOG Exchange is an opportunity to meet other obstetrics and gynecology residents from around Europe. It gives us a chance to share practices and encourage research, to get inspired and to improve our training, as well as our standards in patient care. We encourage all participants of the ENTOG Exchange to join us for the entire program.

Registration/ Participation

The application is primarily addressed to the representatives of the member states, who can then select and send two participants to the ENTOG exchange program. We kindly ask applicants to include a brief introduction, indicate their professional preferences (obstetrics, oncology, reproductive medicine, robotic/laparoscopic surgery), and mention any other relevant details for the exchange.

The member states will forward the selected applications to ENTOG at entogexchange2025@gmail.com by the **27.12.2024**.
